\*During the development of the Capital Budget for FY 10-11 (spring of 2006) Plymouth School District notified the Department that they did not wish to be considered in the Capital Budget for FY 10-11. Littleton moved into Plymouth's slot, in FY 10-11. Whitefield was then notified that they were now in line for funding for FY 12-13. In response to Plymouth's move in the queue it was agreed upon between Superintendent Mark J. Halloran and Justina Hale, Administrator of the Career Development Bureau on October 2006 that they would be eligible for renovation funding in FY 14-15.

\*\*During the development of Capital Budget for FY 10-11 (spring of 2008) the Department of Education was notified that the Laconia City Council did not authorize the Laconia School Department to request Capital Budget funding in FY 10-11 to renovate the J. Oliva Huot Technical Center.

\*\*\*Pinkerton Academy became eligible for renovation funding through an amendment to RSA: 188-E.
